

University Animal Care Committee Standard Operating Procedure		
Document No: UACC 2.0	Subject: Pilot Studies	
Date Issued: September 27, 2023	Revision: Original	Page No: 1

Location: Queen's University

Purpose: The purpose of this Standard Operating Procedure (SOP) is to describe the procedures surrounding pilot studies.

- 1. Introduction and Definitions:** Both the CCAC and the UACC encourage the use of pilot studies when new approaches, methods or products are being tried, before approving new, large-scale protocols.

Pilot studies are defined as AUPs where the outcome of what is being proposed is generally unknown. This could include the determination of a half-to define statistical variability which will enable a full study to be warranted. The results of the study should also be reported, as well as the experimental endpoints for any future studies.

Abbreviations: University Animal Care Committee **UACC**, Principal Investigator **PI**,

program. Standalone peer review is however required if the pilot study explores a new research direction that is not covered within the context of an existing peer-reviewed research program.
