

Vacation Time

This Policy and its related procedures set standards for the fair and consistent accrual and usage of paid standards legislation.

Procedures

The Vacation Policy Procedures have been created to support the Vacation Policy and to provide a clear statement of the principles to be considered for ensuring that the University complies with the Vacation Policy and adheres to the Employment Standards Act and the applicable collective agreement(s).

Accrual

1. Employees' initial vacation Entitlements are outlined in their employment contract (typically 15 days) and increase in accordance with Appendix A (Vacation Schedule) of the Vacation Policy.
2. An employee's vacation entitlement cannot exceed 30 days per calendar year.
3. For employees other than those in continuing, full time appointments, vacation Entitlements will be pro-rated based on full time equivalency.

CarryOver

1. The University's policy is that Entitlements be used in the Accrual Period, though CarryOver up to five days of vacation may occur if:
 - a. The department head/designate grants an employee's written request for CarryOver, to a maximum of five days; or
 - b. Exceptional operational circumstances prevented the utilization of vacation days.
2. However, in no circumstance can an employee with less than five years of continuous service utilize fewer than ten of their vacation days, or the pro-rated equivalent of those ten days for new employees, continuing part-time employees, continuing term employees or reduced responsibility employees, in a calendar year.
3. In no circumstances can an employee with five years or more of continuous service utilize fewer than fifteen of their vacation days, or the pro-rated equivalent of those fifteen days for continuing part-time employees, continuing term employees or reduced responsibility employees, in a calendar year.

4. Requests to carry over vacation must be submitted to the department head or designate in writing no

New Hires/Terminations/Transfers

1. When an employee transfers to a new department, their **Carey** and any accrued Entitlements will be the responsibility of the department in which they were earned. The department head/designate of both departments must make arrangements to schedule existing **Carey** and any accrued Entitlements prior to the transfer and/or transfer funds equivalent to the **Carey** and any accrued Entitlements.
2. Employees hired in the first half of the month will be entitled to a full month's worth of accrual; employees hired in the second half of the month will accrue a half months' **vacation** accrual.
3. The vacation payout that an employee receives upon termination will be prorated based on their service within that year and reduced for any vacation days used up to the **prorated** vacation entitlement. Employees terminating in the first half of the month will be entitled to a **half** month worth of accrual. Employees terminating in the second half of the month will be entitled to a whole month's worth of accrual.
 - a. For example, an employee whose annual Entitlement is 20 days, and who terminates on May 10, and has not used any vacation within that year, will be paid **out** 7.5 days of vacation ($20 \text{ days} / 12 \text{ months} \times 4.5 \text{ months}$).
4. Department heads/designates are expected to schedule employees' unused Entitlements prior to their termination date. Where such arrangements are not practicable, the value of the outstanding Entitlements will be paid out on the employee's final pay.

Policy

The University strives to provide a healthy workplace that supports a work/life balance and provides employees with periods of uninterrupted time away from their jobs and **related** duties. Vacation Entitlements are to be used in the calendar year in which the employee earns the vacation, though **carry** over of vacation may occur in exceptional circumstances. Approval to carry over may be granted in accordance with departmental guidelines, applicable collective agreements, and the Vacation Policy Procedures.
