

Place Value

*Lyrics by Steven Meece
Music by Gary Rasberry*

*Place value, place value, we know you
Place value, place value, carries it through*

Collecting pencils, picking up sticks
Falling through my hand, too much to mix
What's the best way, to carry this

If I had, more pencils, than hairs on my head
This little school bag, just might explode dead
It would, be time, to raise my white flag
And move it all into, a big garbage - bag.

Place value, place value, we know you
Place value, place value,
